Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (currently amended): A cover for a handles for use under sterile conditions, the cover comprising:

a flexible, foldable bag open at one end, to cover said handle;

an annular skirt for holding ~~the entire periphery of a portion~~ at the open end of said flexible bag;

a ring for snugly holding said portion against the inner surface of said skirt;

a first set of spikes of differing lengths protruding inwards from the inner surface of said skirt, pointing towards ~~the~~ a longitudinal axis of said skirt; ~~and wherein said spikes are of uneven length,~~

a second set of spikes protruding inwards from ~~the~~ an inner perimeter of said ring.

Claim 2 (currently amended): A method for providing a sterile cover to a handle in an operating room comprising:

unfolding a folded sterile bag, with its open end directed towards said handle, starting said unfolding from the end of said handle; by sliding said bag a collar secured to the open end of the bag along said handle, the collar comprising an annular skirt and an inner ring; and

wherein retaining said bag is kept in place by at least one a first set of spikes such that spikes of different lengths that project radially inwardly from the collar to engage the handle directly,
